

THE DIRECTOR OF CENTRAL INTELLIGENCE

WASHINGTON, D. C. 20505

DE/IC 95-1517  
17 APR 1975

Intelligence Community Staff

MEMORANDUM FOR: Director, Defense Intelligence Agency

SUBJECT : Intelligence Product Bibliography System

REFERENCES : (a) Director, DIA Memorandum,  
[redacted] dated 27 March 1975

(b) DASD(I) (R&M) Memorandum, dated  
14 March 1975

1. I have reviewed your memorandum of 27 March and I am making a reply to a similar memorandum from Adm. Rectanus of 14 March which relates to a specific article in the NIB as well as the bibliographic problem.

2. I believe that it would be premature to table this at USIB at this time, but would prefer to have the Information Handling Committee of the USIB take a look at the problem, review the ASD(I) study and make some recommendations as to what approach might be feasible. This subject is obviously critical to good management, but still must be considered along with other very pressing matters such as imagery transmission and handling.

3. I am, therefore, asking [redacted] to take this on as a matter for the IHC to consider and to make recommendations to me in a month or so which we can then address. You will be able to follow developments through your IHC member, and I assure you that we will do what we can to address the matter in its proper context of resource considerations and other related issues.

[redacted]  
Samuel V. Wilson  
Lieutenant General, USA  
Deputy to the DCI for the  
Intelligence Community
